CREATING A WEBPAGE IN WEBNODE

**For Erasmus+ project „Small schools to
make future citizens grow”**

Guidelines compiled in Nov 2020

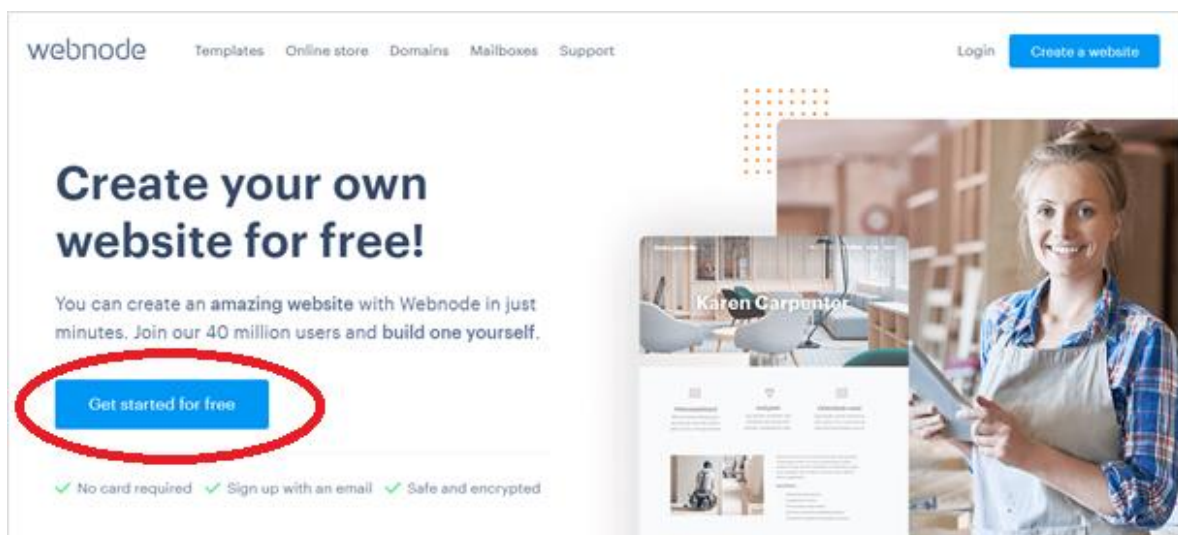

©Margit Lindau & Sirje Ellermaa Kärla Basic School (EE)

The reasons to create your own website:

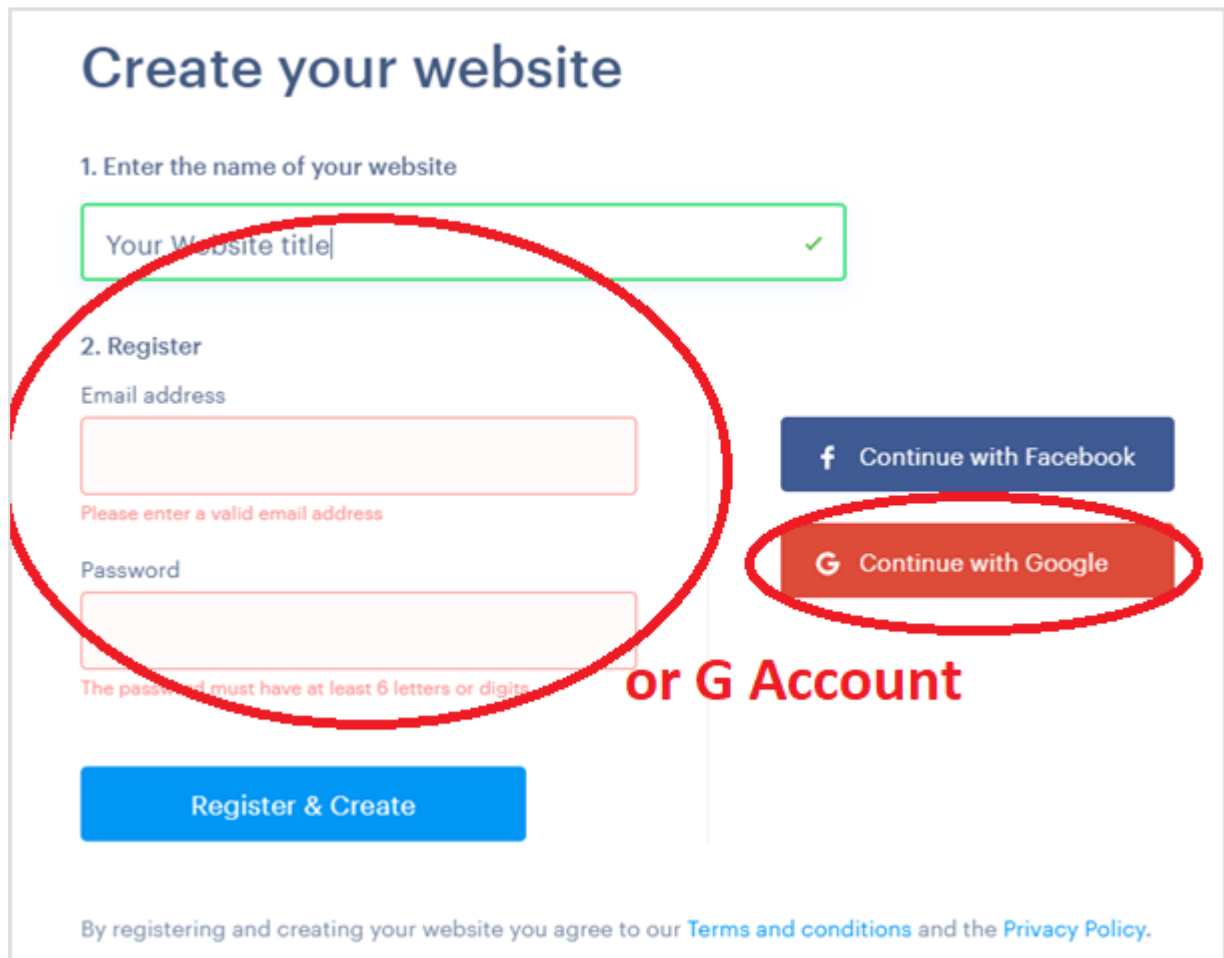

- student can present homework, especially during distance learning
- both teachers and students can collect their work and use it as portfolio
- teachers can use for recording self-evaluation materials and evidence

Here are some examples <https://jakob-kpk0.webnode.com/>, <https://annika-opimapp8.webnode.com/>, <https://kpkkarjaar.webnode.com/>

Step 1: Go to website <https://www.webnode.com/>

Step 2: Enter the name of your website and register your Webnode account. Create website.

The image shows a registration form for Webnode with several red annotations. A large red oval encircles the '2. Register' section, which includes the 'Email address' and 'Password' fields. A smaller red oval highlights the 'Continue with Google' button. The text 'or G Account' is written in red next to the Google button. The 'Your Website title' field is highlighted with a green border and a green checkmark. The 'Register & Create' button is blue.

Create your website

1. Enter the name of your website

Your Website title ✓

2. Register

Email address

Please enter a valid email address

Password

The password must have at least 6 letters or digits

[Register & Create](#)

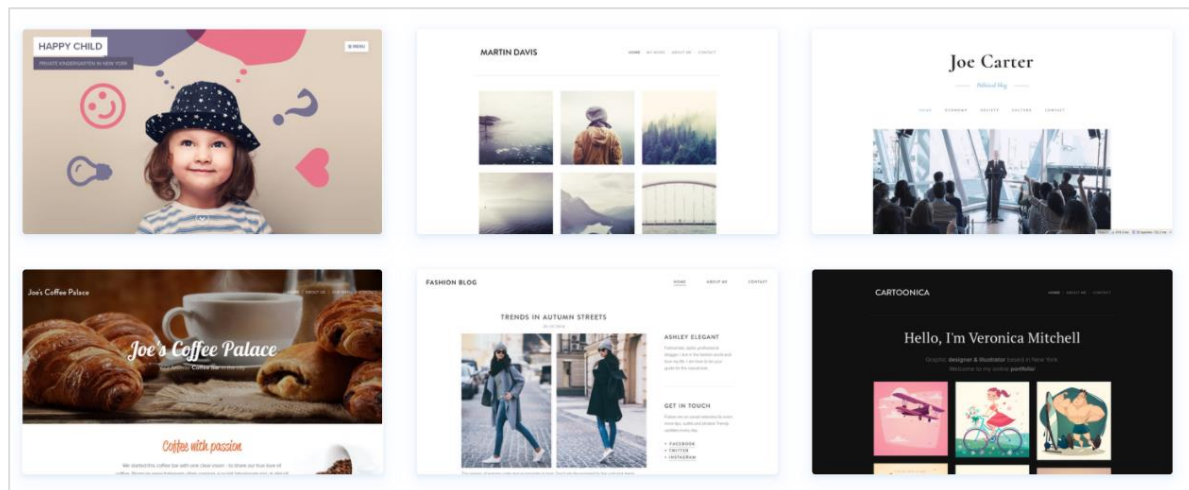

By registering and creating your website you agree to our [Terms and conditions](#) and the [Privacy Policy](#).

Step 3: Select website

What type of site do you need?

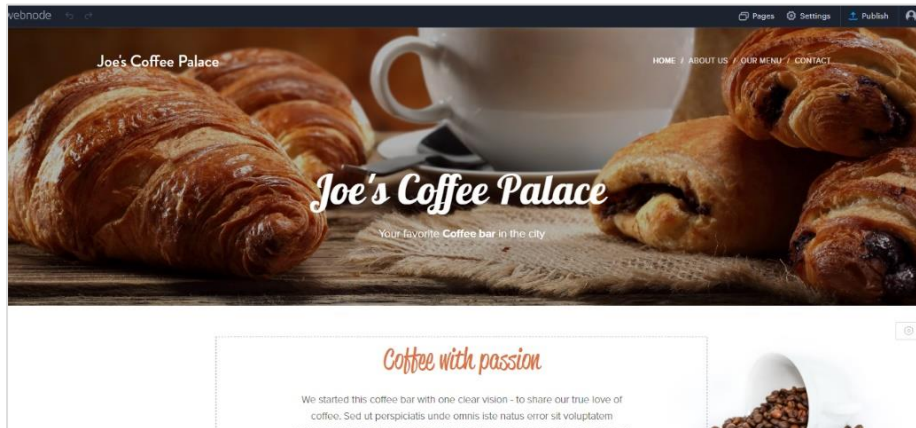

Step 4: Choose your template

Step 5: Begin to edit by clicking „edit my website“.

You will see your website

- Add logo and slogan
- Add sections and other elements (blank page, image, gallery, feedback, Youtube html code etc)
- Add PAGES
 - Modify your page with new text/photo;
 - Activate the notification of cookies (Settings – Website settings)
- Create a sub-menu
- Change the page name in menu
- Settings, publishing the pages
- After a while - how to edit my page? (webnode.com, log in, edit)

Step 6: How to share a website?

While publishing the website you can see the URL of your site. This is the address of your website, you can share this. By pressing CLOSE-button you can continue editing of your website.
